

Best Practices – Cleaning / Disinfecting

The health, safety and wellness of the members, and staff, at the Royal Centre Fitness Centre is of the utmost importance; including reducing the risk of spread of COVID-19 throughout the facility.

To accomplish this, the janitorial service provider Bee Clean will provide staff members with the proper equipment, cleaning materials, approved disinfectant, and PPE to reduce the risk of cross contamination and infection. Please see the following for your reference.

Daily Disinfecting Procedures

Bee Clean staff will disinfect all touchpoints including gym equipment, door handles, washrooms water taps, toilet and urinal flush levers, locker doors and handles, and rubber mats. Disinfecting service will be provided 3 times per day and once at night.

- Each disinfecting session will take 45 minutes. During each disinfecting session, the gym will be closed for 45 minutes.

Nightly Cleaning Procedures

The Bee Clean night staff will perform a thorough cleaning of the gym, after 7PM, Monday to Friday. The service will include a complete cleaning of all washrooms, gym equipment, floor, emptying waste containers, and disinfecting all touchpoints. As per CDC recommendations, janitorial staff will clean all surfaces before applying disinfectant .

- All used microfiber cloths and floor mops will be taken off site each night for sanitization and laundry service.

Cleaning Products & Disinfectant

Health Canada approved disinfectant Eliminator DS DIN #02498014 will be used to disinfect all touchpoints and a general-purpose cleaner will be used to clean the floors - staff will be provided with a new/clean microfiber cloth each day.

Personal Protective Equipment (PPE)

For routine services, approved cloth masks, safety goggles, and disposable gloves will be provided to and be required to be worn by all Bee Clean staff. Safety Data Sheets (SDS) ~~sheets~~ for disinfectant and cleaning products will be kept on site.

Sanitizing wipes will be available for the purpose of members sanitizing the equipment before and after personal use.
